

22nd July 2022

Dear parents/carers,

Our Year 6 children have worked incredibly hard again this year, achieving some fantastic results at the end of the year.

Below are our provisional results for 2021/2022. They are provisional and will not be **validated** until September. They state the percentages of children whom have met the expected standard (EXP +) and those which have met the higher standard (HS). For Writing, it states which children met the expected standard (EXP +) and those working in greater depth (GD). The last table also shows the percentages of children that achieved the expected standard or a higher standard in reading, writing and maths.
